LOCAL BRIEFS.—

The Lenten season puts a quietus upon hops.

The quiet at the Police Court remains unbroken.

The Masonic fraternity are warned against one W. M. Burns.

The health of the State Treasurer, D. A. Jenkins, Esq., is improving.

We understand the Water Works Company will organize soon.

Speciems of Chatham iron ore are on exhibition at the Yarborough House.

The Berger Swiss Bell Ringers are heading this way. We may expect a visit from them early in March.

Persons wishing a good drink of Massay & Co.'s Ale go to Miller & Nelson's, front basement, Market House.

A small white boy name Sam ——, had his arm broken yesterday by a stone thrown in sport by a companion.

An elegant ladies' gold watch will be raffled off at the bar-room of the National Hotel to-morrow. It is a beauty.

The celebrated Commedian, John E. Owen, is going to visit Wilmington again on the 10th prox. Why can't we have him here?

A colored man, name unknown, committed suicide in Middle Creek Township, this county, a day or two ago by hanging himself to the limb of a tree.

A fisticuff between two white men, overloaded with benzine, was the attraction yesterday morning on McDowell street. It was a quiet proceeding, and therefore no arrest was made.

We return our best thanks to our neighbor, the *Friend of Temperance*, for the handsome compliment which it pays us in his last issue. Our innate modesty prevents our copying the notice.

It is said that a disease similar to the epizooty is raging among the canines of Wilmington. We breathe a fervent prayer that it may obtain in this city with fatal effect.

The Legislators are exhibiting signs of home-sickness. They will undoubtedly leave here on Monday. We wish them a safe return to their homes and a pleasant reunion with their families and friends.

Now that the additional $100,000 has been appropriated by Congress to the proposed government building in this city, we would like to be informed when the work of erecting said building is going to commence.

For the nine hundredth time we call the attention of the city authorities to the wretched condition of the sidewalk of portions of Wilmington street. We propose to quit after a few more allusions to the matter, not in anger but in sorrow.

By reference to their card published elsewhere, it will be seen that Messrs. A. S. Merrimon, Thos. C. Fuller and S. A. Ashe have formed a co partnership for the practice of law. These gentlemen are too well known to the people of North Carolina to need any notice at our hands.

We noticed at the Yarboro House on yesterday several Englishmen in search of farms. While they like our climate and people, they say we have the *cussedest* roads ever seen. Does not this argue the great importance of a direct road tax, which would enable us to put our roads in good order and keep them so.

Dr. Lindoman, the chiropodist, is winning golden opinions. All upon whom he operates express their satisfaction at the skill and effectiveness with which he conducts his operations. Dr. L. has visited this city before, and all of his old patrons are willing now to give him testimonials. Wherever the Doctor may go he has our recommendation.

In the present dearth of local news we can appreciate the following:

"One of the Ohio papers tells about a brave little boy out there who found a broken rail on the railroad track, and perceiving the peril in which the train would be placed if it should come dashing past without warning, set out on the fence for five long hours in the bitter winter cold, in order that he might carry the first news of the accident to his father, who is local editor of a paper published in the neighboring village."

A large nine-drill grain and fertilize sower can be bough: cheap, by application to P. O. Box 35. See notice elsewhere.

LEGISLATIVE.—In the Senate yesterday the prohibition liquor bill, embracing a large number of churches, schoolhouses and other localities, came back from the House with amendments for concurrence. The Senate refused to concur, and called for a committee of conference from the two Houses to settle the amendments proposed.

The Revenue bill passed its second reading, after several amendments. The tax upon foreign insurance companies being again considered by the Senate, in consequence of a mistake in the engrossing on the part of the House, and two per cent. ordered to be imposed by the State upon all charges for premiums obtained in the State, and forbidding the counties charging more than one per cent. upon the same. This amendment awaits the concurrence of the House.

The Amnesty bill was again on yesterday the main feature of the proceedings of the House. The bill was further amended before it passed its third reading as will be seen by a reference to the reporter's column.

In the hasty and necessarily imperfect sketch of the remarks of Mr. McGehee on Amnesty, reported on yesterday, the following passage occurs: "He mentioned some of the vindictive expressions that had fallen from the lips of Judge Tourgee, and drew a paralel between that officer and the bloody Judge Jeffreys." It should have read thus: "He quoted the language used by the Judge of the Seventh Judicial District, "that he intended to give Orange county *hell*," and said that no paralel to such language by any judicial officer could be found, unless in one of the expressions which, from time to time, fell from the drunken and bloody Jeffreys. He insisted that the vindictive passions displayed by the Judge, before whom most of these cases would be tried, constituted a powerful argument for Amnesty.

CONCLUSION ARRIVED AT.—We fear we shall have no other Fair at Raleigh, as the subscriptions are coming in with a snowness such as to dishearten all who take an interest in such matters. While we compliment the liberality of many, we do not feel at liberty to censure the penuriousness of others. But of one thing we are certain, that is, if our citizens don't respond with more liberality, so large a town never saw so small a Fair. If Goldsboro, Wilmington, Charlotte, Henderson and Weldon can build up such nice grounds for their local Fairs, why is it that Raleigh, with the whole State to help her cannot go through with this enterprise? We withhold other comment until after next Thursday, as, according to appointment, another meeting of the citizens will be held at Metropolitan Hall. There and then the whole matter will be finally settled, and if all say "no Fair" then we say, amen!

"THE HENDERSON TRIBUNE."—This is the title of a new weekly paper, published at Henderson, N. C., by Messrs. Harrell & Collins, the first number of which reached us yesterday. Prof. J. Abner Harrell, a gentleman of fine literary attainments, is the editor, and the number before us evidences that he means to publish a good paper. It will be thoroughly Conservative in politics, and will prove a faithful ally in whatever is intended to advance the true interests of the State. We congratulate the good people of that section upon the establishment of a paper in their midst.

J. Abner, here is our ☞.

SERIOUS ACCIDENT.—Yesterday a very painful accident happened at the Sash and Blind Factory of T. H. Briggs, Mr. N. Cheek, an employee of the establishment had, by some means, four fingers sawed off by the circular saw. Dr. Royster was called in and dressed the wound.

(1) Pure and mellow! Century Whiskey!

GASOLINE ACCIDENT.—Last evening the wife and child of Mr. E. W. Watson, who resides on Fayetteville street just below the Executive Mansion, were painfully burned by the accidental ignition of this fluid, while the former was engaged in filling a lamp. Mrs. Watson had the lamp in a short distance of the fire and was filling it up from a tin cup, when, by some means, the fluid ignited and the clothing of her little girl, some two years of age, who was standing near her at the time, took fire. The mother immediately went to the rescue of the child and in endeavoring to extinguish the flames was herself set on fire. Mr. Simeon Smith, who happened to be passing by, attracted by the screams, rushed in and succeeded in rescuing the child. Mr. Watson, who at this time of the occurrence was about the yard attending to some duty, at this juncture of affairs put in appearaece, and by his prompt and vigorous measures, succeeded in suppressing the flames which were encircling his wife. We learn that the child is badly burnt about the ancles, and that the mother received some severe burns about the thigh and face, but that nothing very serious is apprehended. The escape from the horrible death was a narrow one, and this warning to handle combustible fluids more carefully should not pass unheeded. Dr. James McKee was called in, and did all that medical skill could suggest to alleviate the sufferings of the unfortunate lady and child.

NEVER BEGIN ON FRIDAY.—O. B Smith, Esq, the great American house movist, made a start yesterday morning, and moved the Baptist College building a few feet. He had worked hard all day and gotten everything in readiness to start this morning, but some of his help were so much opposed to starting on Friday that he had to give way to their superstition and move a few feet. This is one of the biggest jobs ever done in the State. And while we wish him much success, we fear the consequences. Don't it seem monstrous to move a large twelve room, three story house and never jar a wall?

JNO. G. SAXE.—We have before announced that this celebrated humorist will lecture in this city on the 24th prox. on the subject of "love." In regard to the lecture the New York *Times* says:

Mr. Saxe's subject was "Love;" not merely the despostic, dangerous, delicious love that is usually represented sented with wings and bow and arrow, but love Material, Patriotic, Philanthropic and Divine. Laughter and applause strove long for the mastery, but at the close of the last stanzas the latter carried the day."

On this tour South, Mr. Saxe will lecture at several points in the State.

MEETING OF THE BOARD OF DIRECTORS OF THE INSANE ASYLUM.—We are requested to announce that there will be a meeting of the Board of Directors of the Insane Asylum, at the institution, on Monday, March 12th, at 10 A. M. The following gentlemen comprise the Board:

Wesley Whitaker, R. C. Badger, Dr. E. B. Haywood, J. P. Prarie, J. G. Ramsay, G. W. Stanton, Dr. T. L. Banks, C. L. Harris, Jas. W. Hood, col., Geo. W. Brodie, col., T. G. Walton, Henry Watson, Dr. M. Whitehead and Dr. A. B. Chappin.

PROGRESS OF TEMPERANCE.—We learn that Col. J. J. Hickman organized a Lodge of Good Templars at Statesville, on Tuesday night, with one hundred charter members. We still have a younger brother we are willing to sacrifice to this cause.

AUCTION TO-MORROW.—Capitalists, notice the sale to morrow of the house and lot, located in the corner of Davie and Blount streets, belonging to W. C. Parker, Esq. This is a good opportunity to invest.

PERSONAL.—We were pleased to see in our office yesterday our friend J. B. Hussey, Esq., Editor of the *Piedmont Press*. His smiling appearance indicates that prosperity which his paper merits.

Raleigh still lacks one attribute of a city—it has no Faro Bank.

The Virginia Railway War.

It would be very strange (and yet it is not improbable) if the triumphant march of the giant Pennsylvania Railway Monopoly, whose capacity for mischief now knows no legislative limit, were to meet a fatal check in a region where it was supposed there was no power to resist. There is trouble at the extremities.—New Jersey is in revolt. When she acquiesces in the policy of leasing her railways to an alien corporation, it was thought she had made sacrifice enough It was putting withes on her limbs. But now, when the hard taskmaster seeks to change those withes for fetters, naturally enough her latent spirit revolts, and she is not disposed, without a struggle to resign for all time her right to legislate for herself. This is precisely what is now exacted. The Pennsylvania Company, which in Virginia, for its own purposes, is urging a free railroad law, in New Jersey is actively opposing one. That question is not decided, and we are content to leave it without further comment.

The struggle in Virginia is of another kind. Broken as may be the spirit of that great Commonwealth, as one of the confederated sovereignties, it is very clear, among her people, there is a good deal left of ancient fidelity to themselves. When the Pennsylvania monopolists first went across the Potomac, with their ostentatious tender of sympathy and promises of aid, Virginia welcomed them as benefactors in her hour of desolation. She was grateful for any offers of aid, and when she supposed her ruined railroads, or some of them, were to be rebuilt by these generous strangers, she did not pause to scrutinise secret motives or to spy new ruin in the distance. Thus was it that, through the agency of one of those irresponsible creations of Pennsylvania law, with a changeable title and ubiquitous privileges, known as the "Southern Railway Security Company," the monopolists secured the control of nearly two hundred miles of Virginia railroads and more than a thousand further south. Of course, it was not long before the fatal power of its clutch was felt, as one by one, these subsidized corporations found their credit impaired and their stock depreciated. They were no exception to the universal rule, that whatever it touches it destroys. Late, but at last, the spirit of Virginia is aroused, and her citizens, still fond of their homes, and devoted, as we have said, to local interests, realize the fact that this alien corporation has nothing in common with them, but that every local interest is to be sacrificed to huge through lines and high local freights. As one of their newspapers the other day said, Virginia might as well be "tunelled" as have such lines of travel over her surface. For this awakening result, great credit is due to the enterprize and moral courage of the Direction of two railway companies, purely Virginian—the "Atlantic, Mississippi and Ohio," and the "Richmond and Fredericksburg" companies. Gen. Mahone made a gallant fight for Upper Virginia, and won it.

The brunt of the struggle has, however, fallen on the "Richmond and Fredericksburg Company," which has firmly resisted all attempts at cajolement or intimidation. It is the only check on the rapacity of the monopolist in Eastern Virginia. The effect is that its credit is not affected, its stock not depreciated, and that confidence is ungrudgingly reposed in its able and honest administration. But for it the Pennsylvania monopoly would have an unbroken line, via Harrisburg or Columbia, from Jersey City to Atlanta. Poor Philadelphia reduced to a way station, counts for nothing! Nor does this Company, in thus maintaining its integrity, refuse sullenly to enter into business relations by which free travel and through traffic can be promoted. But it prefers to receive from the monopoly a rateable share of freight, payable at short intervals, and in cash, to questionable guaranties and promises of rent which may or may not be kept. If the Pennsylvania Company want to buy and have the means to pay, this contumacious corporation would probably be willing to sell; but to lease or be leased it positively refuses. It does not trust the lessee, especially when for some reason he is not willing, except as a sort of surety, to become party to the contract. It has no faith in "Credit Mobilier's" twin sister, the "Southern Security Company." It chooses to deal with principals. If Mr. Astor, or Mr. A. T. Stewart, or any one of our real estate proprietors, were to be applied to by a prospective tenant and told that the lease was to be made in another person's name—a head-servant for instance—we may be very sure he would decline the arrangement. So, here, it may be assumed, and this the Virginians have the sagacity to see, that these ancillary, concentric corporations are *per se*, fraudulent, destructive to the greater corporation on which they are fastened, and a patent device to cheat the innocent and credulous public. Thus then stands the railway war at present.—*New York Tribune, 24th.*

TO MEMBERS OF THE LEGISLATURE.

Knowing that many of the Members before going home would like to have a late style BONNET or HAT for their wife, daughter or little children, our friend OETTINGER, 48 Fayetteville Street, has ordered in time and just received by Express the very Latest Spring and Summer Styles, to an inspection of which the Members who are so fortunate as to be marrid, are especially and most respectfully invited. Those who are not married can also come; perhaps the sight will have a good effect and make them wiser men. 2t.

NIGHT SESSION.

WEDNESDAY, Feb. 26, 1873.

Mr. Speaker Robinson said that the certificate of Mr. Mizzell, the member of Martin, who contested the seat of Mr. Moore, had been presented to him for full pay from the first of the session. After examining the precedents in the case he found them all to be in Mr. M's favor, and would therefore sign the certificate, unless the House ordered otherwise. No objection was made.

Mr. Cowles opposed taking this step at present, owing to the already heavy taxes imposed upon the people.

Mr. Ellis, of Columbus, favored it.

Mr. Murphy warmly advocated the measure, believing that the State should take some steps in this direction. The great need for more accommodations for the class of sufferers sought to be benefitted was most apparent to the members of the Board of Public Charities, and something should be done for the relief of those who could not be accommodated in the present Asylum.

Mr. Love thought the State was too poor to take this step now.

Mr. Cramer offered a substitute to the effect that a commission of five be appointed by the President of the Senate and Speaker of the House, two on the part of the Senate and three on the part of the House, whose duty it shall be to visit different portions of the State where inducements have been offered for the location or site for a "Hospital for the insane in North Carolina," and examine into the advantages and inducements offered, and submit the same to the General Assembly for their action at its next meeting. Adopted.

Failed to pass its third reading by a vote of 16 ayes to 23 nays.

The "omnibus prohibition liquor bill," as amended by the House, came up for consideration, and caused considerable debate, some of the amendments that had been adopted by the House being objectionable to various Senators. The difficulty was finally surmounted by the non-concurrence of the Senate in the House amendments, and the calling for a Committee of Conference of the two Houses.

Mr. Cowles moved that the State levy a tax of 2½ per cent. instead of five.

Mr. Welch favored the motion of Mr Cowles, believing that these companies should be well taxed.

Mr. Murphy opposed the per cent. proposed, saying that four-fifths of the people in Eastern Carolina opposed driving these insurance companies out of the State.

The motion of Mr. Cowles was lost by 16 yeas to 23 nays.

Mr. Cowles moved that 2 per cent. be imposed. Adopted by 22 ayes to 19 nays.

The bill as thus amended, passed its second reading.

Mr. Dunham introduced a bill concerning T. F. Lee, Sheriff of Wake county, to the effect that the said Sheriff having failed to settle with the Treasurer, in accordance with the provisions of a relief granted him the first of February, that the said act of relief be annulled. Passed its several readings.

After having reconsidered the resolution to meet at 4½ p. m., the Senate adjourned to 7½ o'clock.

HOUSE OF REPRESENTATIVES.

At 10 A. M. Mr. Speaker Robinson called the House to order.

Journal of yesterday read and approved.

Messrs. Carter, Bowman, Maxwell, Bennett, Byrd and Trivett were granted leave of absence.

Messrs. Moring, Brown, of Mecklenburg, Bennett and Carter submitted reports from standing committees.

By Mr. Watson, a bill to allow a tax in Orange county. Calendar.

On motion of Mr. Stanford, the bill touching the sale of liquors in certain localities was taken up, amended and passed its several readings.

On motion of Mr. Jones, of Orange, the bill to protect farmers and planters in relation to commercial fertilizers, was taken up, and, after quite a lengthy debate was, on motion of Mr. Brown, of Mecklenburg, postponed until to-night at 8 o'clock.

The bill to allow a special tax in Randolph county was taken up and passed its third reading, yeas 93, nays 0.

On motion of Mr. Settle, the resolution rescinding the resolution recenly adopted impeaching R. M. Henry, Solicitor of the 12th District, was taken up. Mr. Settle said he was absent when the resolution was adopted. He was surprised that the Legislature should shoot at such small game when there were others, much higher in office, as much or more liable to the charge of drunkenness than Mr. Henry. The Legislature had resolved to adjourn on Monday and could not possibly try that officer by that time, and it was nothing more than justice to Solicitor Henry that some action should be taken in the matter, and besides the question of cost should be considered. He thought the House had better retrace its steps in this matter, &c.

After some debate, the resolution was adopted.

On motion of Mr. Carter, the bill appropriating a State lot in the southeast part of Raleigh and $5,000 to the colored department of the Deaf, Dumb & Blind Asylum, was taken up and passed its third reading.

On motion of Mr. Luckey, the bill to provide for additional accommodation for the insane was taken up and failed to pass its second reading.

The bill to incorporate the Ladies' Co-opperative Association of Wilmington, passed its several readings.

The bill to re enact the act to incorporate the Granville Railroad, was taken up and passed its third reading.

The resolution in favor of A. M. Lewis, Jr., was taken up, amended, and adopted.

The bill in reference to the statute of limitations was taken up, and passed

THE WESTERN NORTH CAROLINA RAILROAD.

We published yesterday in full the report of the Committee appointed to investigate the affairs of the Western North Carolina Railroad, and to devise means, if practicable, to prevent the sale of the Road under execution, if consistent with the interest of the State to prevent the sale.

It will be seen that the report of the Committee confirms the material statements heretofore published by us, and which are contained, substantially, in the Governor's special message to the Legislature on the subject, but the facts in relation to the sale of the Road are stated in the report with greater particularity, and being on the sworn testimony of witnesses, with more authenticity.

After a full investigation of all the circumstances connected with the management and pecuniary embarrassments of the Road, the Committee were unable to discover any fraud, collusion or other complicity between the officers of the Road and outsiders, or any of the witnesses examined by the Committee, and they think there is no good ground that such accusations should longer continue against these gentlemen. The witnesses examined were S. McDowell Tate, President of the Road, J. J. Mott, Ex President, R. F. Simonton, R. Y. McAden, N. W. Woodfin, T. L. Clingman, A. S. Merrimon, and several others. The Committee do not attempt to acquit the management of the Road of the commission of errors, but they say truly, that "it is easier to look back and tell how errors could have been avoided than to point them out in advance and suggest their cure."

In view of the fact that an appeal has been taken to the Supreme Court of the United States from the decree in the Circuit Court ordering the sale of the Road, and that a decision on said appeal may not be made for years, the Committee think that, notwithstanding the appeal, the Circuit Court may order a sale of the Road *by consent*, on such terms as may be deemed proper and right. They therefore recommend that the Legislature pass a resolution asking the Circuit Court to appoint three persons in addition to the two persons already named for that purpose, and that the five constitute commissioners to sell the Road—title to be retained and the purchasers to be put under compulsion to build the Road, beginning immediately.

The Committee then add:

"Lest the action of the Court may fail to accord with these suggestions in consequence of supposed want of power in the premises or other cause, your committee recommend the passage of a bill or resolution appointing His Excellency, Tod R. Caldwell, George Davis, of Wilmington, J. H. Wilson, of Charlottee, M.E. Manley and Walter L. Steele as commissioners, who, acting in concert with the representatives appointed by the stockholders, will negotiate a sale of all the interests of the State and individuals and others in the enterprise upon such terms, under such rules and regulations as to time of sale, terms of sale, and security for the purchase money, as may be considered proper by them, and that they be empowered to pass upon the claims of all such creditors of the Road now in litigation as may submit to their action, and that they be empowered to compromise the indebtedness of the Road; that the purchaser at such sale be required to give guarantees for the immediate and prompt resumption of the work of building and pushing forward the uncompleted part of the Road; and that the money arising from the sale, or the notes, or bonds to secure it, be applied to the claims of such persons as submit to the jurisdiction of the commission or otherwise establish their claims, and in case there be an excess, that it be paid to such persons as are in law entitled to it," and that the said Commissioners be clothed with full power to act in this matter in the place and stead of the Legislature.

In case the Commissioners appointed do not act, the following alternates are suggested, W. T. Dortch, William Eaton, W. H. Battle, James A. Leak and Alfred M. Scales.

This report seems to meet the case as fully as any other plan that has been thus far suggested. It has two purposes in view, first to prevent the sacrifice of the State's interest in the Road, and secondly, to throw no obstacles in the way of the speedy completion of the Road.

This is the position we have substantially taken heretofore. We opposed the sale of Road under the decree of the Circuit because of alleged fraudulent transactions, which were charged in the papers by various parties.

We were unwilling that the property of the State should be sold under a decree obtained on fraudulent debts, but the Committee, after a patient and thorough investigation, say that they are unable to discover any fraud or collusion by officers of the Road or other persons, and we accept their statement with pleasure, as we are gratified that gentlemen entrusted with the management of important public duties have been acquitted of damaging charges.

If it is necessary to sell the Road, it is best to appoint a commission to conduct the sale for the benefit of the State, and the regulations suggested by the Committee which should guide such commission, seem to us practicable and wise. If we understand the report aright, its purpose is to guard the interests of North Carolina, and at the same time to provide against any delay in the completion of the Road, that might be caused if we were compelled to await the decision of the Supreme Court of the United States, on the appeal from the decree of the Circuit Court.

THE NATIONAL CENTENNIAL.

We publish in full to-day the Joint Resolutions of the General Assembly, ratified on the 25th inst., in regard to the Centennial celebration at Philadelphia, on the 4th of July, 1876.

The resolutions were introduced by Col. Bennett, of Anson.

Col. Peyton, formerly of Kentucky, now we believe a citizen of New Jersey, has been in the city several days in the interest of the Centennial, and speaks in warm terms of the prospects of the great national exhibition.

If the purposes of the celebration are faithfully carried out, the occasion will be a proud one for America, and will result in mutual benefit to the several States.

It will do more for national reconciliation and peace than so-called reconstruction or any measure which Congress has adopted since the war.

We publish to-day a communication on the Centennial, and while we do not agree with the writer in all the sentiments expressed in the article, we approve of the objects of the Philadelphia celebration. We think the departure from many of the precepts and the faith of our political fathers has brought much trouble and confusion upon the country. If we had such men as Nathaniel Macon to control the legislation of Congress, there would be no Credit Mobilier scandals nor similar disgraceful transactions, to bring reproach and dishonor upon the country.

Therefore, we do not rejoice at the progress that has been made by the politicans of the present age, who have struck out in strange and untrodden paths.

We trust the Centennial Celebration will have a tendency to inspire our public men with a greater reverence for the virtues and characters of their revolutionary ancestors, and inculcate the practice of more honor, honesty and patriotism in the councils of the State and National Legislature.

MONTFORD McGEHEE, ESQ.

The meagre account by our Reporter gives but a faint idea of the eloquent speech of this gentleman in the House of Representatives on Wednesday last, in favor of the Amnesty Bill. We have heard this effort of Mr. McGehee's spoken of on all sides in terms of such exalted commendation as to add greatly to the enviable reputation which he had already achieved in the Legislature for ability and eloquence. The high stand which Mr. McGehee has taken in the House not only reflects honor upon the the county of Person, which sent him here, but on the State of North Carolina as well.

THE PENNSYLVANIA CENTRAL IN VIRGINIA.

We copy to-day, from the New York *Tribune*, an editorial on the Virginia Railway war.

It will be seen that the *Tribune* calls the Southern Security Company the twin-sister of the Credit Mobilier.

The North Carolina Legislature should be on their guard against allowing this State to fall a victim to gigantic foreign monopolies.

TERROR IN NORTH CAROLINA.

In the Laurel section, in the Western portion of the State, considerable excitement prevails, if we are to believe the statements contained in the following article, which we clip from the last Baltimore *Gazette*. It seems that a nondescript animal has made his appearance there to the great horror and annoyance of the inhabitants. Hear what the *Gazette* says:

Laurel District, in North Carolina, is arming. Old men go about with guns on their shoulders. The younger and more adventurous roam the wood, and start at every crackling twig. The women and children quake with fear as they go to the neighboring spring. To use a proverbial expression, the people are all eyes. It is neither Ku Klux nor Judge Bond, but a

Monster of such frightful mein
To be "run from" needs but to be seen.

Like the ghost that appeared to the friend of the patriarch Job, it does not appear to have any definite shape. It is a nondescript with a vengeance. One of the persons who saw it thus describes it. It will be observed that though obviously a beast of some kind, it has the very curious habit of yelling:

Aside from its strange and unusual appearance, the unearthly yell it uttered on perceiving me, which reverberated and re-reverberated through the forest, was enough to shake the senses of the most daring adventurer. The animal was one hundred yards distant from me, and appeared to be a huge black bear with mane and head like a lion, but had horns like an elk upon it. Its tail was long and bushy, with dark and light rings around it to its very extremity. Its eyes gleamed like a panther's, and its size was that of an ordinary ox but somewhat longer.

It is a pity, but the above spectator did not stop to investigate further for fear of being investigated. The laurel brake witnessed some of the tallest running on record. Several have seen this beast, and sundry calves and sheep are missing. So the mountaineers are fortifying their houses, and there is a general hullaballoo in the district.

Congress and the Centennial.

If there be one thing, aside from the dreary routine of material interests, which should claim the attention of the National Legislature, it is the Centennial Celebration of 1876. It claims its attention now, for not a moment is to be lost in putting together and in motion the vast machinery which is to effect so much. It is in itself an object purely National if ever there was one. Its locality must be somewhere, and nowhere beyond the limits of the territorial district where nobody dreams of putting it, could it be more appropriately than where the Congress of the revolution did its first great deed. It is idle to deny that one fruit of the great social and polittcal crisis of the last ten years has been to liberalize the views of public men in their construction of the Constitution. We do not go so far as to say that all or most of the restraints on National Legislation have been swept away, and abrogated for that would amount practically to a change of organic law. But we do say, most emphatically, that there once were doubts and scruples as to the exercise of Federal power, and the objects to which it was to be directed which are as dead and obsolete as the statutes of Westminister, or the Kentucky resolutions. Fancy an ancient doubter like Nathaniel Macon making a speech in Congress now! He would not have half a dozen listeners or command a single vote. This is a truth that cannot be gainsaid. Assuming it to be so, and rejoicing that it is so, then, we repeat our inquiry, to what more deserving object can this liberalised action of the Federal Legislature be directed than to this? There is a clause in the Constitution which, even in ancient days, was made to do good service—that which gives Congress the power to promote "the general welfare." It was invoked, and successfully, for National Banks. It was invoked, though not so effectually, for Internal Improvements, and certainly and beneficiently will come into action again if the President's suggestions on this head be carried out. It was this clause which authorized the creation of this very Centennial corporation, and its ancillary Commission. This celebration is meant to be an illustration of the glorious development in the hundred years now drawing to a close. The Independent Nation is a century old. It was called into being by Congressional action anterior, of course, to any formal Constitution, but when that Constitusion was formed with all its limitations, it contained no word that forbade the Congress of to-day doing honor by a liberal contribution from the Nation's treasures to the great art of their classical prototype. It is eminently a case for Congressional interposition, and we add our voice, uninfluential as it may be, to the surf quenched expression in its favor.

Another clever gentleman has been deceived by hydrants. It was New Year's, and he was rejoicing under the influence of about 1,000 drops of joy. He ran against a hydrant, while homeward bound, working longitudes. He happened to mistake the hydrant for a colored boy. "Scuss me, sonnie," said he patting the hydrant paternally. "Didn't run you down because you was black. Grow up [hic] and be a useful man [hic]. Imitate [hic] my example." And he laid a quarter on its nozzle and went on with a lighter heart and the satisfaction that he had made one poor soul happy.

The almost universal testimony of those who have used the

is, that there is an entire absence of Headaches, and other disagreeable after-effects so often experienced in the use of other brands. This is a direct consequence of the

Purity of the Century Whiskies,

and the impurity of many other brands. They are ABSOLUTELY PURE; four prominent chemists certify to this fact, viz:

Prof. C. U. SHEPARD, Jr., State Chemist of South Carolina.

BUY THE BEST

SOLUBLE SEA ISLAND GUANO!

State Fair Premium at Wilmington for the Largest Amount of Cotton to an Acre.

GOLDSBORO, Wayne County, N. C., November 23rd, 1872.

JOHN H. POWELL, Esq.:

DEAR SIR—The Soluble Sea Island Guano purchased of you this season was used by the side of three others, and has given me more satisfaction than any of the others. The Soluble Sea Island Guano was the one used upon the acre of land upon which my son raised the cotton upon which he took his State premium for the greatest amount of cotton to an acre; and I am informed by the Chairman of the Committee that had he entered for the largest amount of cotton to the acre, premiums open to all ages, he would have also taken that premium, beating all 150 lbs. I am better pleased with it than any other Guano I have ever used on cotton, and I shall use it in preference to others next season for my cotton crop. T. A. GRANGER.

ALSO EIGHT PREMIUMS AT WAYNE COUNTY FAIR.

The Amount of Seed Cotton made on an Acre of Upland by Mr. Granger was Three Thousand Six Hundred and Thirty-three Pounds.

EDGECOMBE COUNTY, N. C., December 12th, 1872.

Messrs. R. W. L. RAISIN & Co., Baltimore:

I bought of Messrs. Branch, Herbert & Co. last Spring, one ton of your Soluble Sea Island Guano for myself and three tons for other parties, and I find them all well pleased with it, and say it is the best Guano, and paid them better than any they ever used. The ton I used myself was put in cotton by the side of two other guanos, and I am willing to say that I should buy the Soluble Sea Island Guano in preference to any that I have used since the war. Very respectfully,
J. R. GREEN.

SELMA, N. C., November 12th, 1872.

W. H. AVERA, Esq.:

DEAR SIR—The ten bags Soluble Sea Island Guano more than met my expectations I consider it equal to Peruvian for cotton. It paid me over 100 per cent. I more than doubled the crop. My neighbors who bought it are highly pleased, and will use it in preference to any other when it can be had. Hope you will keep a supply the coming Spring.
Truly yours, R. HARE.

LOUISBURG, N. C., December 4th, 1872.

E. W. FULLER, Esq.:

DEAR SIR—I tested your Guano this year, and the result is, I will use it on my whole cotton crop next year. Yours, &c.,
ELLIS MALONE.

HENDERSON, Granville County, N. C., November 29th 1872.

To S. J. PARHAM:

The Soluble Sea Island Guano purchased of you was used on tobacco and cotton by me by the side of Peruvian Guano, Stonewall & * * * *. I like it much better than either, and I observed a marked difference in favor of the Sea Island. Shall use in the future. S. S. ROYSTER.

HENDERSON, Granvitle county.

HENRY BURRELL, Esq., has stated to us that he made a test this present year's tobacco crop, using two other higher-priced guanos, but is convinced that the Soluble Sea Island Guano is the cheapest guano he has ever purchased, and shall use it again.

YANCEYVILLE, Caswell County, N. C. December 6th, 1872.

Captain W. P. ROBINSON,

DEAR SIR—In reply to your inquiry as to how I liked the Sea Island Guano I got of you, I wish to say that I applied it, 200 pounds to the acre, alongside of Peruvian, Pacific Guano and Gilham's Tobacco Fertilizer in equal quantities; it stands the drouth better than either of the above fertilizers. It matured better on the hill and cured better and more yellow than either of the other fertilizers used. I think it is a splendid fertilizer and I expect to use it next season. Yours, respectfully,
MARCELLUS MIMMS.

WILSON, N. C., January 11th, 1873.

Messrs. HARRISS & BLACKWELL:

GENTS—I used this season, on my cotton crops about 15 tons of your Soluble Sea Island Guano, testing it by the side of Guanape and Vegitator, and up to the time of the heavy washing rains last of June, I was equally pleased with its action as of the Guanape and better pleased than with the Vegitator.

FRIDAY.....FEBRUARY 28, 1873.

NORTH CAROLINA.

The Cape Fear at Fayetteville continues high.

A slight snow fell in Fayetteville, on Sunday and Monday.

The Good Templars of Durham are talking about building a town hall.

Iron ore of superior quality has been found on the farm of Col. R. P. Hamlin, in Northampton county.

On Tuesday last, one firm in Charlotte shipped 40,000 pounds of freight over the Air-Line Railroad.

By incendiarism Mr. Paul Nichols, of Rockfish township, Cumberland county, lost 70 barrels of turpentine a few days ago.

On Saturday last, in Scotland Neck, Prof. Fetter was thrown from a buggy and had his leg broken just above the knee.

Most of the bacon stolen from the smoke house of Benjamin Lee, of New Hanover county, last week, has been recovered.

Thomas L. Vail, Esq., has been elected Treasurer of the Fair of the Carolinas, and F. H. Glover Assistant Secretary.

The cotton gin of J. J. Ferrell, 6 miles from Durham, was burned last week. A small flint-rock passing through the gin did the work.

The new Baptist Church at Magnolia will be dedicated on the fifth Sunday in next month. Rev. Wm. Pritchard, of Wilmington, will preach the dedicatory sermon.

The gin house of J. S. Fowler, at Bay river, Craven county, was burned on Tuesday about noon, destroying 50,000 pounds of seed cotton. The origin of fire is unknown.

One day last week De Willis Alston, near Littleton, gulped a glass Bromo Chloralum by mistake. The error was discovered in time to do away with all bad effect by taking an emetic.

The tug boat *Brandt* collided the other day at Wilmington with the draw of the railroad bridge over the Cape Fear, damaging the bridge to the extent that it cannot be used for several days.

A negro man by the name of Coff Kelly, was killed near Palmyra on Saturday last, by being thrown from a cart, and having sundry bags of meal and a heavy box of meat falling on him.

The Wilmington *Journal*, of the 26th inst., says that the residence of B. F. Mitchell, in that city, was robbed a few days since to the extent of three hats and two over coats. The family were at dinner when the robbing was effected.

Hamlin Pryor, a negro man who was working on the Petersburg road at Weldon, was severely and probably fatally injured on Saturday last by a heavy mass of earth coming on him. No bones were broken, yet, he was badly crushed, from which effect it is thought he will die. So says the *Roanoke News*.

Says the Fayetteville *Eagle*, of the 25th inst.: Eight prisoners were removed from Cumberland county jail to the jail in Lumberton, on Saturday, last to await their trial at next term of Superior Court of Robeson county. These prisoners were brought here some time ago, we believe, because of the insecurity of the Lumberton jail.

Rev. H B. Blake, county Examiner of New Hanover county, met with quite a serious accident Tuesday morning. He was passing the corner of Dock and South Water streets, near where a vessel was being unloaded of ballast, when the rope of the hoisting apparatus, which was attached to a horse, was suddenly released from its fastening and flew back with great force, striking Mr. Blake and knocking him down. In falling, his head struck the stone pavement, by which he was painfully injured and for some minutes completely stunned. So says the Wilmington *Star*.

The Ball Building.

A late Washington correspondent thus speaks of the approaching inaugural ball:

The immense structure designed for the inauguration ball room has now reached a stage towards completion when some idea of its size and features can be reached. The proportions of the hall are not only colossal, but the design is as unique and fitting for its purposes as was the Crystal Palace idea, by Joseph Paxton, for the world's fair. The credit of the plan, we believe, is due to Messrs. A. B. Mullet and Adolf Cluss, architects, and it has been carried out with wonderful spirit and fidelity by Mr. S. G. Morsell, the well-known architect and builder, of this city. Imagine a ball room 350 feet in length by 150 in breadth, surmounted by arches 57 feet high and of 100 feet span, (the largest arches ever built in the world,) decorated in brilliant colors, lit up by 2,500 gas-burners, and filled with a gaily dressed crowd, and you have some idea of the scene that will be presented on the night of March 4th the dancing space in the clear will be 300 feet by 100, lined by pyramidal tiers of seats for the convenience of dancers and spectators, and affording a fine opportunity for dress display. At the sides of the ball-room a tier of cloak rooms extends the whole length of the building 350 feet by 25, and so arranged in dimensions and with numbered compartments that for the first time in the history of inauguration balls there will be entire security for all articles deposited there. The lively scene of thousands of people scrambling and tugging to get a place to deposit hats, coats, shawls and wrappings; the wild hunt for the same articles after the ball; the uproar, the yells, the fancy swearing in all the languages of the world, enriched by the home vernacular of thirty seven States and various Territories; the picturesque display of hundreds of hatless and coatless victims improvising a rig of bandanas and shawls with which to get to their homes—all this will be missed, but the public will doubtless be willing to accept, instead, the more prosaic mode of managing the cloak-room business proposed this year.

The supper room, on the opposite side, is of the same magnificent scale; where, too, a new feature will be presented in the shape of a continuous supper; so that there will be no occasion for the heretofore piggish scrammble for seats or viands. There will be five large stoorerooms for supper eatables and portables, communicating with the dining-room; and near by a spacious separate building will be wholly devoted to kitchen uses. As there was doubt whether any single caterer could attend satisfactorily to the wants of the ten thousand guests, the ball managers will take upon their shoulders the task of ensuring supplies on the most ample scale, and will employ several first-class caterers to superintend their preparation. The lunch room for the President and his family will be adjacent to the long supper room, and will be in communication with dressing rooms for their use. On the opposite (east) side will be the ladies' dressing rooms, committee rooms, &c. At the north end of the hall the managers have erected a building 75 feet by 25 for the exclusive use of the press, at a cost of some $2,000; a thoughtful provision in view of the defective arrangements heretofore for their accommodation. It may be added that light and airy as seem the proportions of this immense arched roof, it is constructed really with a degree of strength beyond almost any private edifice. Even in its unfinished condition, at the time of the gale on Friday, which unroofed so many buildings, it did not start a bolt.

Joint Resolution of the General Assembly of North Carolina in regard to the Centennial International Exhibition in the City of Philadelphia, in the year 1876, Adopted Feb. 25th, 1873.

WHEREAS, The Congress of the United States by an Act approved March 3d, 1871, entitled, "An Act to provide for celebrating the one hundredth Anniversay of American Independence, by holding an International Exhibition of arts, manufactures and products of the soil and mines, in the city of Philadelphia, and State of Pennsylvania, in the year 1876," did provide for the promotion and control of the exhibition of the national resources and the useful arts, and for the proper commemoration of the Declaration of American Independence, on 4th day of July, A. D., 1876;

And whereas, The mode adopted by Congress as above recited, by exhibiting to mankind the wonderful results of of a century's growth of the Nation, will most strikingly demonstrate the wisdom of our ancestors in risking their all for the attainment of self-government;

And whereas, The exhibition, if successfully carried out, will be of eminent practical benefit in disseminating among civilized nations information concerning the products of our forests and fields, minerals and ores still undeveloped, while our citizens will be enlightened by studying the processes and fabrics of the most advanced nations of the world;

And whereas, It is eminently proper that the people of North Carolina, who by the Mecklenburg Declaration of May 20th, 1775, were foremost in suggesting the Declaration of 1776, which, with conspicuous fortitude, they defended and maintained, should take part in the commemoration of its hundreth Anniversary:

1st. The General Assembly of North Carolina do resolve: That this General Assembly cordially approve the plan and objects of the Centennial International Exhibition to be held in the City of Philadelphia, State of Pennsylvania, in the year 1876.

2d. That the people of North Carolina be earnestly recommended to heartily co-operate with the officers of said Exhibition, in order to carry out its design to the fullest measure of success, in order to bring before capitalists and men of culture fair specimens of the national and artificial products of the nation.

3d. That our Senators and Representatives in Congress be requested to promote all measures requisite for making said International Exhibition a truthful exponent of the progress of the nation.

4th. That the Governor be requested to forward copies of this preamble and resolutions to all said Senators and Representatives.

Passed the General Assembly and ratified this 26th day of February, A. D., 1873.

SETTLING A DOCTOR'S BILL.—In Texas the other day a doctor rode fifty miles to attend a patient. After he had cured the patient he presented a bill of $50, and proceeded to complete his preparations for the journey back to the post, thinking no more about the matter. As he was about to mount, the patient's husband put in an appearance, with his trusty rifle in his hand. "Doctor," said he, "I reckon we'd better settle this here matter," and taking him aside. "Yes wa'nt agoin' off without a settlement, was you? I don't want to owe no man nothin." Here is a ten, which, I reckon is about the squar' thing. Now, if you ain't satisfied, jest get yer weepon and come round behind the bill thar, so's the old woman won't be riled up, and we'll settle it. I don't want no man to go 'way from my house dissatisfied, 'specially you, Doc."—*Louisville Courier Journal.*

SPECIAL NOTICES.

THE following statement, from one of the oldest and most respectable merchants of the city of Petersburg, speaks for itself and needs no comment:

I have for many years used "BECKWITH'S ANTI-DYSPEPTIC PILLS" as a family medicine and also in my own case, and I have no hesitation in pronouncing them the most safe, efficient and pleasant medicine with which I am acquainted. They promptly relieve Dyspepsia and its usual attendants, Costiveness, Heartburn, Headache, Loss of Appetite, Chollc, &c. I take pleasure in recommending them to the public. They ward off disease and preserve health. I always keep a full supply on hand and would not willingly be without them. JOHN ROWLETT.

DR. TUTT'S EXPECTORANT.—The properties of this elegant preparation are demulcent, nutritive, balsamic, healing and soothing. It braces the nervous system and produces pleasant and refreshing sleep. It exhilarates and relieves gloominess and depression. It is the most valuable Lung Balsam ever offered to sufferers from Pulmonary diseases.

PERRYVILLE, ALA., March 3, 1869.

Dr. W. H. Tutt:

Dear Sir—For fifteen years I have been afflicted with Asthma. My suffering has been intense. I have been unable to lay down for a week at a time. It seemed as if I would choke. I coughed incessantly, and my wheezing could be heard all over the house. I had despaired of ever getting well, but thanks to your invaluable Expectorant, my attacks are seldom. I can now rest well at night. I believe it will make a permanent cure. Truly yours,

ARTHUR F. MCCOY.

Tetter, Salt Rheum and all Skin Diseases cured by Dr. Pierce's Golden Medical Discovery.

THE PEOPLE'S STAMP OF VALUE.—The Government indorsement, which legalizes the sale of PLANTATION BITTERS, is not the only stamp affixed to that famous Vegetable Tonic. It bears, in addition to that official sanction, the still more valuable stamp of public approbation. This inestimable voucher of its rare properties as a Tonic, Corrective and Alterative, is of much earlier date than the Government credential; for millions of sick persons had pronounced it the Grand Specific of the Age long before Congress thought of taxing proprietary medicines. It is unnecessary to repeat, in detail, the proprieties of this wonderful Vegetable Invigorant. The best reference that can be offered to those who desire the full particulars of its virtues, is the General Public. Ask those who have tried it as a remedy for dyspepsia, constipation, billiousness, intermittent fevers, nervous debility, rheumatism, sea sickness, low spirits or loss of vital power, what Plantation Bitters has done for them, and be governed by the response they make to your inquiries

THE SECRET OF BEAUTY.—What is it? no longer asked, for the world of fashion and all the ladies know that it is produced by using a delightful and harmless toilet preparation known as G. W. Laird's "Bloom o Youth." Its beautifying effects are truly wonderful. Depot, 5 Gold Street, New York.

BURNETT'S STANDARD FLAVORING EXTRACTS are neatly put up in Unpannelled 2 oz., 5 oz. and 10 oz. bottles, and are for sale by the trade generally in every principal city and town in the United States, Canadas, and British Provinces, as well as in many other foreign countries.

HELP FOR THE HOPELESS.—You are weak dejected, miserable, and nothing does you any good, you say. Don't despair. There is balm in Gilead. Have you tried Vinegar Bitters? No! Then why don't you? Whether your complaint be dyspepsia, biliousness, nervous weakness, constitutional debility, or any other trouble, Vinegar Bitters will revive and renovate your shattered system, as a genial rain refreshes the withered flowers.

TO OWNERS OF HORSES.—No one who has ever used Dr. Tobias' Horse Venetian Liniment, will ever be without it; it is a certain cure for Colic, Sore Throat, Cuts, Bruises and Old Sores. Warranted superior to any other; in pint bottles, at One Dollar. Sold by all Druggists. Depot, 10 Park Place, New York.

RISLEY'S BUCHU is a reliable Diuretic and Tonic for all derangements of the urinary and genital organs. The genuine, as formerly sold by Haviland, Harral & Risley, and their branches, is now prepared by H. W. Risley, the originator and Proprietor; and the trade supplied by his successors, Morgan & Risley, New York.

PRATT'S ASTRAL OIL, has a world-wide reputation as the surest and best illuminating oil. Over two million gallons have been sold for the past two years, from which no accidents of any description have occurred. Send for circular. Oil House of Charles Pratt, established 1770, New York.

WE HAVE FREQUENTLY HEARD mothers say they would not be without Mrs. Winslow's Soothing Syrup, from the birth of the child until it has finished with the teething siege, under any consideration whatever.

SVAPNIA, or opium purified, the most perfect anodyne in the market, made by process of Dr. I. M. Bigelow, Detroit Medical College. Is always uniform in strength, which is rarely the case in other preparations of Opium.

FOR DYSPEPSIA, indigestion, depression of spirits and general debility in their various forms; also, as a preventive against Fever and Ague, and other intermittent fevers, the Ferro-Phosphorated Elixir of Calisaya, made by Caswell, Hazard & Co., New York, and sold by all Druggists, is the best tonic, and as a tonic for patients recovering from fever or other sickness, it has no equal.

THURSTON'S IVORY PEARL TOOTH POWDER.—The best article known for cleansing and preserving the teeth and gums. Sold by all druggists. Price 25 and 50 cents per bottle. F. C. Wells & Co., New York.

This is strictly a

HOME LIFE COMPANY.

Its Officers and Directors are citizens of the State, of high character for business capacity, enterprise and probity. It offers every

SUBSTANTIAL BENEFIT

that Northern Companies do, with the great additional consideration that the capital is kept within the State, and, therefore, helps to build up and foster Home Institutions.

Another important fact to be considered is, that the Wilmington Live has thus far obtained A VERY MUCH LARGER INTEREST for the money invested at home, than any of the New York Companies receive for their investments, according to their sworn statements before the Commissioner of that State.

These unquestionable facts should commend this Company, above all others, to our people. Let it be born in mind that millions of dollars received for Life premiums have been sent North since the war, which at once drains the South and enriches the plethoric capitalists of the North. If there was no other consideration, safety, fairness and cheapness being equal, why North Carolinians should INSURE AT HOME. this were more than sufficient.

THE WILMINGTON LIFE

has excellent special features.

It places no restriction on Residence or Travel; it makes no extra charge for Female risks; and its Policies are incontestable after Five Years.

Its business is managed economically. Its risks are taken with equal caution. Its investments are made judiciously.

Its motto is:

"ECONOMY, PROMPTNESS, FAIRNESS."

THE CONNECTICUT MUTUAL

LIFE INSURANCE CO.,

OF HARTFORD, CONN.,

Annual Income, Nearly

$10,000,000.00!!!

This Company has steadily pursued two great practical ends:

FIRST.

To place its policies beyond the power of adverse contingencies.

SECOND.

To reduce the actual outlay of its members for their policies to the lowest possible rate. To accomplish this, it allows him to retain from 20 to 30 per cent. of the first premium as a permanent credit or loan, and to retain from each subsequent premium that portion of the previous year's full premium actually proved to be surplus; so that at no time does the Company take from him a higher actual premium than is needed to carry the risk for the year, and provide the reinsurance fund. It is strictly Mutual. Nothing is diverted to stockholders, and each member has his insurance at its exact cost to the Company. Its rate of expense has been from the beginning less than that of other companies.

TELEGRAPHIC NEWS.

NOON DISPATCHES.

Congressional--The Louisiana Question Discussed at Length.

WASHINGTON, Feb. 27.—Senate—The calendar being the regular order, Carpenter moved to lay the calendar on the table for the purpose of taking up the bill reported from the Committee on Privileges and Elections, providing for a new election in Louisiana. "It is absolutely necessary," he said, "that this should be acted upon in order to avert the bloodshed shown by the morning papers to be imminent in Louisiana."

Sherman and Morton also urged immediate action upon the bill, and it was taken up. Hill offered a substitute embodying his views in favor of forming a Legislature out of the legally elected members of both the bodies now claiming to be the Legislature of Louisiana, and authorizing the new Legislature so formed to count the returns of the last election and declare who are the legally elected State officers.

Carpenter addressed the Senate in support of the bill reported by a majority of the Committee. The views of the Committee, he said, were fully set forth in the majority report, and as the bill had been submitted to persons representing all sides of the controversy, he supposed that if such a bill were to be passed at all, this one would be satisfactory in its details. He had just been handed by Mr. McMillan, claiming to be elected from Louisiana, a telegram addressed to himself, McMillan and Gov. Warmoth, which was read at the desk, as follows:

"NEW ORLEANS, Feb. 25.

McMillan and Gov. H. Warmoth:

It is not true that the country Parishes are rapidly acknowledging their allegiance to the Kellogg Government. The people in the country, like the people in the city, will never yield obedience to that Government. It can never collect the taxes, and it can only be maintained by force, that force will have to be United States troops, stationed in every parish to enforce the authority of his Government. His Government can only be sustained by an actual conquest of the people, and not by the kind of force which the people would submit to rather than have a militia."

This dispatch was signed by a large number of citizens who, according to McMillan, are leading men in the country parishes.

Morton said that it would be a vast national misfortune and a great misfortune to Louisiana, for this bill should pass. A small faction in that State having got up the so-called McEnry government, without a shadow of letter under the law, was now endeavoring to stir up resistance as to the actual government, the Kellogg government—a resistance which must lead to strife and bloodshed. McEnry, a so-called Governor, without any authority whatever, was now doing all he could to destroy the efficiency of the government, and doing this, as he (Morton) was advised, at the instigation of persons now in Washington. To make good this charge, Morton read the several proclamations of McEnry, concluding with the one published this morning. But McEnry and his friends were now getting into rather deep water upon attempting to carry out this proclamation. They would be mere rioters, and on refusing to disperse, they would be liable to be shot. Telegrams had been received from Governor Kellogg, showing what McEnry was doing, and under what influence he was acting. In one telegram Kellogg says: "Governor Warmoth telegraphs, urging a collison. I do not think the opposition can get strength enough. They are fast losing the confidence of the community." Their Legislature yesterday had no quorum.

In another telegram, dated on the 20th, Kellogg says: Gov. Warmoth has telegraphed McEnry as follows: 'If you are a government, do something to show it now. Action! Action!! Action!!!'

Trumbull. I am authorized by Gov. Warmoth to say that both these despatches stating that such despatches ever came from him are utterly false.

Morton. I have nothing to say upon that question. I have read the dispatches as they have been sent here.

Carpenter proceeded with an elaborate speech.

The Louisiana Muddle Becoming More Serious.

WASHINGTON, Feb. 27.—Louisiana affairs are becoming serious. Upon a resolution of the fusion Legislature to reinstate certain Courts in Orleans Parish, Governor McEnery calls out the militia of the Parish. No danger seems to be apprehended here or there, and up to this hour no Federal action has been taken. It was understood that the McEnery government should be allowed to organize, so as to obtain a status before the Courts, and was not to be interfered with unless it attempted to seize the State government. It is thought here, that the rubicon has been crossed, and startling news may be expected.

Washington Affairs.

WASHINGTON, Feb. 27.—The Senate has passed the Utah bill. It provides easy means for divorce, validates the claim of the plural wife to share the property of the polygamist, and gives women custody of her minor children. The panel from which juries are selected are summoned under the auspices of five commissioners, three appointed by the United States and two elected by the people, who will probably be Mormons.

The house will vote early to-day on the expulsion of Brooks and Ames.

Snow has again suspended travel far west.

Foreign Affairs.

LONDON, Feb. 27.—The steamer Grecian, from Liverpool for Palerma, has been lost with fifty lives.

Marshall & Sons, cotton spinners at Stockport, has suspended. Liabilities a quarter of a million.

The Carlist General Ollo is marching on Navarra. The Carlists are threatening Pompelu in force. The government troops are entrenching.

Spanish Affairs.

MADRID, Feb. 26—The minister of the colonies has telegraphed to the authorities of Cuba and Porto Rico of the formation of the new ministry, and says the republic will defend, at whatever price, the integrity of the Antilles.

MIDNIGHT DISPATCHES.

Louisiana Matters in Senate—and Credit Mobilier Expulsion Resolution in the House.

WASHINGTON, Feb. 27.—In the Senate Carpenter was generally denunciatory and quite eloquent. He argued there was one of two courses to pursue: to acknowledge McEnry or pass the election bill.

Senator Turnbull, who represented the Democrats, made a speech favoring the recognition of McEnry as the only solution.

The speeches upon the three points, sustaining Kellogg, upholding McEnry and ordering new election indicated that in the opinion of the orators a Republican form of government in Louisiana, for the moment, had fizzled. The indications are that the vote will be very close, and that the issue will be forced before the Senate adjourns.

The proceedings of the House to-day were quite sensational. The body met at 10 o'clock and discussed the expulsion resolution till past noon. It then proceeded to vote on a substitute, offered by Sargent, of California, for the resolutions and was carried by a majority of four.

Then Sargent's resolution, absolutely condemning the conduct of Ames and Brooks, were adopted by a vote of five to one.

A third resolution of Sargent's was to discharge the committee and thus end the whole matter, that was defeated by a majority of twenty, and thus the whole subject was again thrown open.

Then Speer, of Pennsylvania, offered a resolution, censuring the conduct of Kelly, and discussed amid great excitement till the hour for taking a recess.

If that resolution be adopted, it will be followed by a similar resolution in regard to Dawes, Garfield, Bingham and Schofield.

The Bankrupt Law.

WASHINGTO, Feb 27.—The bankrupt bill recently passed by Congress has been received in proper form by the President, and submitted by the President, in accordance with the usual official routine, to the Department of Justice for a careful examination by the Attorney General. The approval of the President to the act is requisite on or before the fourth proximo to make the bill a law. In the meantime Judge Williams is carefully considering the entire bill, and the arguments which have been presented thereon before sending it to the executive for his official views of the measure. The opposition thereto comes from merchants and principal business men of the cities of Baltimore, Philadelphia and New York, to which is given the most earnest attention. The opinion of those who are most deeply interested than all others is, that whatever the Attorney General reports will be concurred in by the President. The entire congressional delegation from the State of Virginia are pressing for an approval of the bill.

Fire in Boston.

BOSTON, Feb. 27.—A fire occured at the corner of Hanover and Blackstone streets. One girl perished and sixteen others escaped to an adjoining house. One jumped from a third story. Another was severely hurt in jumping from the burning to an adjoining roof. Several firemen were killed by the falling walls.

Simon Brown, editor of the *New England Farmer* is dead.

Weather Report.

WASHINGTON, February 27.—For the South Atlantic States northwesterly winds and clear cold weather, for the western Gulf States northerly winds and clear cool weather.

The Assembly at Albany has passed the New York City charter.
